[MORSELS]

A nutty princess

The Island Princess macadamia nut line has expanded to include a gourmet collection in flavors of Maui onion, sweet chili, nori, curry, honey-roasted and lightly salted.

The company says the nuts are produced through "flavor infusion" -- rather than sprinkle the nuts with a powder, they're seasoned when raw, then continue to be seasoned through the roasting process.

The 4.5-ounce jars sell for \$3.75 to \$4.29. They're available at many retail stores, or at the Island Princess factory outlet in Iwilei. Call 839-5222, ext. 207.
